Join us this Sunday for a Family Devotional
honoring the unity of family
and its impact on society and the community.

The Family is a Nation in Miniature

Like the world as a whole, the family is in transition. In every culture, families are disintegrating, fragmenting under pressure of economic and political upheavals and weakening in the face of moral and spiritual confusion.

"The conditions surrounding the family surround the nation.
The happenings in the family are the happenings in the life of the nation."

The central principle for this new day is the oneness of humanity. "The well-being of mankind, its peace and security," Bahá'u'lláh, the Founder of the Baha'i Faith, asserted over a century ago, "are unattainable unless and until its unity is firmly established."
